

*In Answer to the Separate Trader's feigned  
Great Trade for Eighty Thousand Ne-  
groes in Thirteen Years; tis most Evi-  
dent, and a much more Reasonable  
Calculation,*

**T**HAT a Company Exclusive, with a Sufficient Joint-Stock, in that time, might, and would, have Exported in Goods and Merchandize, to the Amount of Thirteen Hundred Thousand Pounds Sterling.

That by them, Eighty Thousand Negroes would have been purchased for less than Two Hundred and Forty Thousand Pounds: The Remainder being One Million and Sixty Thousand Pounds, would have sold for Double, viz. Two Millions one Hundred and Twenty Thousand Pounds, to have been Return'd to *Great Britain* in Gold and other Merchandize; which, to a Trifle, has been totally lost to this Nation, by the Toleration given to Separate Traders, to Interrupt and Ruin the Trade, and the Ancient Constitution of Government on that Coast.

The Separate Traders Whimsical Scheme, of Governing the Black Natives by Consuls, shows how little Knowledge they have of that Coast.

*It is humbly hoped, Her Majesties Subjects will not be left lyable to the Impositions of the naked Natives, to be the bubbles to them and the Hollanders, and other Foreigners, by the confused Government of an Open Trade; but that the same will be now settled by Parliament in a Joint-Stock Exclusive.*

*Note, The Company may be obliged to make part of their annual Exports, from Bristol, and other Ports, whereby all parts of the Kingdom, may have a proportionable Benefit thereby.*

*A Computation of the Stock of all the Separate Traders  
of Great Britain, imployed in the African Trade.*

1. In the Forts and Settlements in *Africa*, not one Shilling.
2. In *Barbadoes*, *Antegoa*, *Mountserrat*, *St. Christophers*, *Virginia*, *Maryland*, some few, but very precarious Debts, having for many Years discontinued Trading thither.
3. In *Jamaica*, large Debts, some good, and many very precarious.
4. In Ships on their several Voyages, to the amount of Forty Thousand Pounds.

5. In

5. In Stock in *Great Britain*, appropriated for the *African* Trade, not one Shilling, none being obliged to Trade for one Penny.

*Note*, The *Royal African-Company's* Losses in this Trade, during the late and this War, amounts to upwards of Four Hundred Thousand Pounds, as *per* Particulars ready to be produc'd;

And

The Trade, at this present time, upon a fair stated Account of Dividends and Payments, is Indebted to the said Company, upwards of Six Hundred Thousand Pounds Sterling, as *per* the Account ready to be produc'd.

**A plain Account of the  
Loss, this Nation has  
sustain'd, by laying  
open the Trade to  
Africa.**
